## 2 Pre-conditions for Effectice Stop Loss

1. Trade towards the general market trend  
eg. Buy on Uptrend. Sell on Downtrend
2. Respect key market structures  
eg. Support/Resistance/Trendline/Price patterns, etc.

SR WWW.THESYEDRAHMAN.COM

## 2 Pre-conditions for Effectice Stop Loss

1. Trade towards the general market trend

Buy trades in uptrend has more win ratio than the buy trades in downtrends.

## 2 Pre-conditions for Effective Stop Loss

### 1. Trade towards the general market trend

Sell in Downtrends. Not in uptrends.

Sell trades in downtrend has more win ratio than the sell trades in uptrends.

### 3 STOP LOSS STRATEGIES

**Strategy 1:** Stop Loss at High or Low of the previous closed candle

Stop Loss Strategy - 1

Buy Trade SL = Few pips/points below the low of the recent closed candle

### 3 STOP LOSS STRATEGIES

**Strategy 1:** Stop Loss at High or Low of the previous closed candle

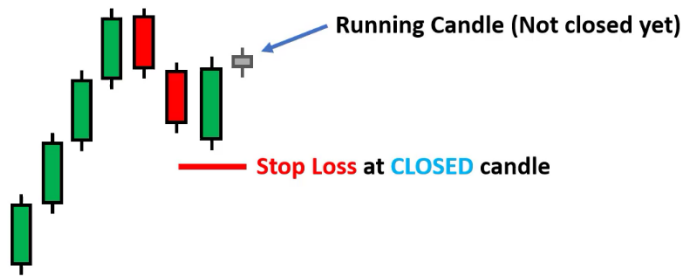

Stop Loss Strategy - 1

Sell Trade SL = Few pips/points below the High of the recent closed candle

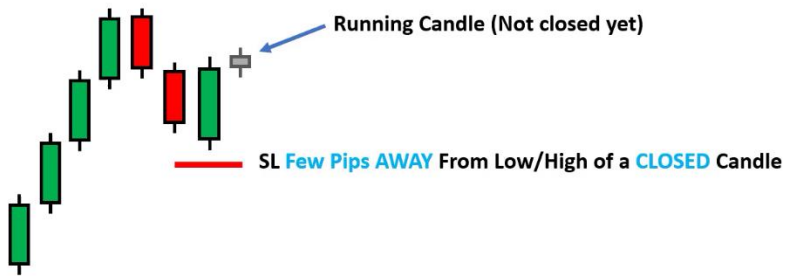

Stop Loss only at a closed candle's High/Low

Stop Loss only at a closed candle's High/Low

Stop Loss Should Be Extended For Few Extra Pips/Points

Stop Loss Should Be **Extended** For Few Extra Pips/Points

### 3 STOP LOSS STRATEGIES

**Strategy 2:** Stop Loss at the previous Swing low/Support(for Buy), and Previous Swing high/Resistance level( for Sell)

Stop Loss Strategy - 2

Buy Trade SL = Few pips/points below the low of the near **Swing Low/Support** level

### 3 STOP LOSS STRATEGIES

**Strategy 2:** Stop Loss at the previous Swing low/Support(for Buy), and Previous Swing high/Resistance level( for Sell)

Stop Loss Strategy - 2

**Sell Trade SL =** Few pips/points above the High of the recent **Swing high/Resistance level!**

[WWW.THESYEDRAHMAN.COM](http://WWW.THESYEDRAHMAN.COM)

### 3 STOP LOSS STRATEGIES

**Strategy 3:** Stop loss at/ or near a strong rounded price figure (Psychological levels)

**Round Numbers:** 0, 10, 20, 30, 40, 50, 60, 70, 80, 90, 100

**Example:** USDJPY = 139.00, 139.50, 140.00, 140.30, etc.

EURUSD = 1.0100, 1.0130, 1.0180, 1.0200, etc.

APPLE = 156.50, 157.00, 157,40, 157.80, etc.

[WWW.THESYEDRAHMAN.COM](http://WWW.THESYEDRAHMAN.COM)

# 3 STOP LOSS STRATEGIES

## Strategy 3: Stop loss at/ or near a strong rounded price figure (Psychological levels)

Market tends to bounce at and from the round/whole numbers(ex. 1.1200, 1.1250, etc.), as these price levels act as the entry and exit zones for traders, thus forms support and resistance levels

WWW.THESYEDRAHMAN.COM

WWW.THESYEDRAHMAN.COM

### Stop Loss at Round Figure – For BUY Trades

For **Buy** Trade **Stop Loss**: Place the stop loss at the nearest **ROUND FIGURE** below the Last Closed candle/ or Swing Low / or Support level

### Stop Loss at Round Figure – For Sell Trades

For **Sell** Trade **Stop Loss**: Place the stop loss at the nearest **ROUND FIGURE** below the Last Closed candle/ or Swing Low / or Support level

And that is all.
